Ardenode Notes

Mr. and Mrs. W. D. Thompson, who has been visiting their son, E. H. Thompson, left Thursday night for their old home, Clifford, N.D. U.S.A. Their health was much improved and we feel assured that they will spend a good word for Alberta.

A business meeting of the T.F.W.A. was held at the home of Mrs. H. Horlick last Wednesday. Reports from the executive were heard and adopted. Work for the bazaar was distributed. An appetizing lunch was served by the hostess at the close of the meeting. The ladies will have a rest until May 9th. This meeting will be held at the home of Mrs. Gothard, Sr., and Miss Gothard will be held. Participants will be published later.

Ardenode is quite a fashionable resort for lachetors; two more being enrolled on the list. Hurry up boys and take advantage of the cheap fares to the old country next year, and bring back your brides.

Cheade Notes

Miss Marion Ellis, of Calgary, an accomplished musician, was a visitor to town on Friday. She would like to get some pupils here to teach.

Mr. John Tomlinson, an old resident was a visitor for a few days around the district.

Walter Hartell is visiting with his brothers for a few days on his way to High River.

The young folks gave a dance on Thursday night, which was very successful. The music was very much enjoyed by the crowd. Miss Agnes, Mr. Geo. Harry and Harold Payne supplied the music. There was also some good dancing. Geo. Harry gave a sword dance, Miss Agnes Berry, a step dance and Miss Shandis a pole-step dance.

Mrs. Tom Barry and Mrs. Newmeyer showed them how to dance an old fashioned dance. There was a number of visitors from Strathmore, and far away as Carbon. This will be the last dance of that kind.

The summer generation are very interesting. A bunch of them staged a wild west show in Tommy Eves' implement shed on Saturday, and had a big attendance. 22 cents was realized of the afternoon show. There were some headlamps.

The Ladies' Bowling Competition was played off at the High Bowling Alley on Thursday last week, and Monday and Tuesday of this one. The ladies have taken a great interest in this event, and had a fine time over it, while there were many spectators to admire the skill of the fair sex. Details of the prize-winners, etc., will be published in next issue.

Mr. Douglas French left for the east last week to meet Mrs. French, who has been spending the winter in the Old Country. They expect to be back in Strathmore at the end of this week. An enjoyable dance was held at the Memorial Hall on Friday evening under the auspices of the Ladies Auxiliary of Strathmore G.W.A. The attendance was not as large as had been expected, and consequently there was not much left over after paying expenses for the object the ladies had in view, namely, the provision of blinds for the windows of the hall.

Good music was provided by Hilda's orchestra, and a nice supper was served by the ladies.

AUCTION SALE of Household Furniture

SATURDAY, APRIL 28th, 1923.
 At 1 p.m. at the Home of R. A. ANDERSON, 3rd St. Strathmore.

Favored with instructions from Mr. R. A. Anderson, who is leaving for the States, I will sell as above the following:

Local Jottings

OF LOCAL INTEREST
 Readers are requested to send in items for this column not later than 12 o'clock Monday noon preceding day of publication. All local news items are welcomed by the Standard. Phone 17 or 18.

Everybody busy now?
 Wheat and flax made shingle panes last week, the elevators of wheat on Saturday being 1100 per bushel. Another argument for a Wheat Board.

Church service will be held by Mr. Whitney, D.A., at Nightingale on April 22nd at 2 p.m.

At a meeting of the C.P.R. A. Voice Choir, held in Calgary recently, Mr. C. R. Lydall, of Strathmore, was elected honorary president. Mr. Lydall has been president of the choir for the past year, and during his term they have made great progress.

Mr. H. Backs is back from D.C., where he has been lumbering through the winter.

At the C.P.R. farm fire ten days ago there was a great shortage of water, the water system being out of order, and the chemical engines were charged with skunk milk from the creamery. Now that it has dried the buildings which were sprayed look as if an attempt had been made to whitewash them. The fire is still smoldering in the basement, there having been a quantity of grain there.

Baseball meeting tonight in the town hall. Everybody turn out.

The school children are doing heavy execution of the gophers, the incentive being the offer of 1 cent per tail offered by the Municipal Service. Harry S. D. reports 787 tails captured up to the end of last week.

The death took place at his home in Calgary on Friday morning of Mr. Henry C. Van Buren, aged 61 years. He had been a resident of Calgary for the past fourteen years. He is survived by his widow, a daughter, Hazel, and two sons, one of whom resides in Calgary, and the other Mr. Harry Van Buren, a bookkeeper for the C.P.R. Irrigation Department at Strathmore. Much sympathy is being expressed for the family in their bereavement.

A daughter was born to Mr. and Mrs. H. McLean Drake, of London, at Mrs. Hinchliff's Nursing Home on April 12th.

The staff of the C.P.R. Demonstration Farm wish to express their sincere thanks to the citizens of Strathmore and others who assisted in subduing the fire at the Farm on April 7th. If it had not been for the timely assistance rendered by the Strathmore fire department, the Irrigation Department, and the numerous individuals who turned out and worked, the damage would undoubtedly have been much greater.

We are sorry to note the impending departure of an old-timer of Strathmore, Mr. R. A. Anderson, who is leaving for his old home in Eastern Canada within the next two weeks. Mr. and Mrs. Anderson and family came to Strathmore in 1905 and Mr. Anderson had been engaged in the draying and contracting business here ever since. He is selling his furniture by auction on Saturday, April 28th. The wish of all in Strathmore will be that Mr. and Mrs. Anderson will have many years of comfort and happiness in the East.

Mr. Harold Bell has taken over the agency for Westinghouse radios, and has a fine instrument installed in his office, by means of which concerts, etc. can be heard from the greater portion of the U.S.A. and Canada. A loud speaking attachment, 25 watts, on Saturday night the selections given by the orchestra at the Plaza Cabaret, Calgary, were broadcasted by Mr. Grant, and were reproduced loudly and clearly on Mr. Bell's instrument. In deed, several parties heard the concert at their own homes through connecting up with the phone in Mr. Bell's office, which was used during the time the orchestra was performing. The death took place on Friday of the infant child of Mr. and Mrs. Carl Schultz. The funeral service took place at the Star office at 1:30 p.m. that day that was held on March 20th on his farm was now shown. The above ground and making a very good stand. So far as we know this is the earliest season in this district for the present year.

STANDARD NEWS

Mr. Alex Blackburn, of Calgary, was a visitor to Standard on Monday.

Mr. C. Kelly, who has been attending University at Edmonton, returned home on April 9th.

On Saturday, April 7th, a tea and sale of home-made candy was held in the Lawrence Drug Store, under the auspices of the Y. M. C. Club, about \$25 was raised.

Mr. and Mrs. L. Christensen entertained Mr. and Mrs. P. Christensen and Mr. and Mrs. G. E. Wolf at dinner on April 8th.

A tennis meeting was held on April 9th, and it was decided to withdraw the application for room for courts in park and request permission to hold them on the park land just north of the depot. Other means of raising funds were discussed, but nothing definite decided on.

Mr. Perry Barker, of Chancelor, was a visitor in town on April 9th.

Mrs. C. Hosken went to Medicine Hat on April 10th, as a delegate to the Women's Institute convention held in that city.

Baseball enthusiasts will regret to hear that Mr. Sam Crory will not be returning to Standard this spring. The Dodge and Beck farm, which he operated last year will be farmed this year by Mr. George Collins.

So far as we have been able to learn Messrs. Anderson and Nelson were the first to commence seedling operations in this district. Their drills were at work on April 10th.

Mr. Peter S. Beck, who, for a number of years has been one of our most successful irrigation farmers, has added his farm to C. B. Turquist. Peter will spend the summer in Montana, where his father has large farm interests.

PAYING THE PREACHER

Considerable difficulty is found in Strathmore in financing the churches. We suppose that the same experience is common throughout the west, and the financial stringency at present existing has no doubt something to do with it. At the same time the amount needed to support the local churches is very small in comparison with the population, and if a wider interest was taken in church matters the churches would not be handicapped, as they are at present, by lack of funds.

It could safely be presumed that the population within church going distance of Strathmore and the points throughout the country visited by the Strathmore clergymen is not less than 3,000, but what do we find on Sundays? Probably not more than three hundred people attend the services.

The trouble throughout Western Canada is that we have worshipped the golden calf, and it has failed us. We have gauged our prosperity by the money standard. Until we get back to a more ethical frame of mind there is not much hope for us. If more took advantage of the opportunity the church affords of a quiet interval for reflection and worship once a week or more we would be better people, but we should not wait until that is forced upon us by hardships, which are inevitable so long as many of us follow the doctrine that the making of money, no matter how it is made, is the supreme attainment of existence.

THE WEDNESDAY HALF-HOLIDAY

Strathmore storekeepers are again taking up the matter of the Wednesday half-holiday. This was a recognised institution for several years, but fell through last year, owing to disputes among the tradesmen.

When the matter is viewed from the proper light, there should be no objection to the stores being closed for one half day each week. The storekeeper or his clerk usually works from 8 in the morning to 6 in the evening each day with the exception of Saturday, when the work period is prolonged to 10 or 11 o'clock. This affords no time for fresh air or recreation except on Sundays, which is not conducive to good health, physically or mentally. The one-man store business is the one to which the holiday appeals most, for he has no opportunity at all to get away from his business and has to snatch his meals in the intervals between customers.

The tradesman has a forty-eight hour week, the farmer has his intervals of cessation from labor, and spends most of his time outdoors, the store clerks in the cities leave their weekly afternoon off. It is only the town and village storekeeper and clerk who has no opportunity of getting into the open during the week.

Every effort will be made so that no customer will be inconvenienced if the scheme goes through. The holiday will be suspended through harvest weeks. Progressive farmers throughout the country generally are in favor of a square deal to the other fellow, and there should be little objection to the proposal going through. It would be a good idea if all the country and town stores in the Province adopted it.

BUYING AT HOME

It is stated that some local people, while they preach buying at home, do not practice it. A number of local dealers last year participated in a campaign to encourage buying at home, but there is no use handing out advice to the other fellow unless you practice it yourself. Progressive dealers locally have cut their prices until now they are equal, if not less, than the prices quoted by the city or department stores, as can be seen by comparing ad. prices, and they are getting their reward in increased business. But in some homes a superstition still obtains that a thing must be better because it comes from a distance. This is only a superstition as has been proved time and again, but it has its effect, and diverts a considerable amount of business. Surely the local storekeeper himself should be immune from it, but apparently all of them are not, if reports we hear are true. The amount spent outside by local storekeepers for goods that can be purchased locally is small, but the principle is wrong, and bad feeling is created. We are not referring to the sale of printing, though we have known of cases of this happening, but to other articles sold locally. "Hang together, or you will hang separately," is both good advice and warning, and we hope that local people will encourage by example in the future.

"GONE WEST"

Mr. E. J. Garland, member for Bow River, made the statement in the Federal House that Canada had lost through emigration to the U.S.A. 1,381,665 people. Hon. T. D. Pattullo, Minister of Lands in B.C. states that the figures given were wrong and misleading, 900,000 people who had died having been included in the figures of those who had gone south. Mr. Garland was wrong geographically. They have "gone west."

Ordering Printing

Remember

WE SELL SERVICE

We take pride in the quality of the work we turn out in our well-equipped plant at Strathmore, and our prices will compare favorably with those of any reputable firm in the West.

Mail order work is given special attention. Every kind of commercial printing is handled at our office.

GET OUR QUOTATIONS FIRST

Don't be fooled on prices quoted to you by canvassers, as printing is a manufacturing process, and comparisons are hard to make, unless you are an expert buyer. One kind of paper may cost five times as much as another, and a quotation on 1,000 is no indication of the price on 2,000, as the costs of composition, etc., do not apply to the extra quantities. Again, you do not pay sales tax or express charges when you buy from us.

ALBERTA COAL IN THE EAST

Perhaps the coal of the greatest potential value to Alberta and to all of Canada, during the past few days has been the splendid reception which important interests in Ontario have given Alberta's trial shipments of coal. If the question of fair and reasonable transportation costs can be solved, then it looks like the dawn of a new era of industrial development for this province. If Alberta and Ontario can get together on this proposition, it will be beneficial all along the line—helping the mining industry here, producing traffic for the transportation companies, and benefiting consumers and industries in Ontario and Quebec. These two provinces are said to import annually \$90,000,000 worth of coal. It would be a good piece of business for Canada if that money could be spent in Canada, instead of the bulk of it going outside the country. The development of inter-Canadian trade in coal may be a means of solving some of Canada's big problems. Alberta's representatives in the east have wired Premier Greenfield that they had an encouraging interview with Sir Henry Thornton on the question of transportation.

IN THE LEGISLATURE

A considerable portion of the Alberta Legislature's work during the past week has been devoted to the consideration of the estimates in connection with the whole, and substantial progress has been made.

On Wednesday Hon. Mr. Brown introduced a bill to "Facilitate the Adjustment of Agricultural Debts."

A bill to amend The School Act was read a second time and committed to Committee of the Whole House.

The Bills of Sale Act, amendments to the Town Act, an Act respecting the sale of Pemmican, an Act respecting Bird Sanctuaries, amendments to the Improvement District Act, amendments to the Agricultural Department Act, were considered in Committee of the whole on Wednesday.

On Thursday several of these bills came on for third reading. Mr. Justice Stuart, representing Lieutenant Governor Birt, who is in Eastern Canada, gave assent to thirteen bills, several of which had just been given a third reading. Fifty-eight bills passed at this session have been assented to.

Slats' Diary

Friday—Pa informed me tonight that he was going to have Sam Co. who was a man who wanted him to learn him the newspaper business. He told him he was going to tell him every thing he knew. And then he said and set him what they was going to do for the rest of the evening. Well they was a conference sprung up among them then on after-wards.

Saturday—They was a well paid meeting here in town tonight and so Pa was on the committee. He spoke got up which was a pleasure from some other town he just looked the committee over and asked for a long time for the town. Sunday—Went out in the country today to visit 1 of Pa's old time about miles which has come home to retire his self and family. They got 1 horse and he has got a pony & a Radio and a bicycle and a little attachment with a gas engine in it & well in fact he has everything he wants and hasn't got any.

Monday—Went up to Jake's house to have there new Radio tonight but it wasn't much account, but he was in much Statistics in the air.

Tuesday—Ma was having a headache & I was at home and Pa finely got out and told her what was what. He said well when you get around and see nothing folks will think you are a fool. Ma up and replied, She said Yes and when you go ahead and talk they know it.

Wednesday—Tonight I shone Pa's shoes before Lodice meeting and I stuck him for a dime for some and then he came along and hit him for two & a 1/2 for a new bell new. I guess he is sorry he won't married into an easy family.

Thursday—A ale lady down the street is worrying her self sick because she don't think she will get to heaven on acct. she is so pore she didn't have nothing to give up during last year.

Friday—The Western Pacific Open Elevator and Terminal Company has leased waterfront property for the purpose of erecting a grain elevator.

Fire Prevention

We are reminded every so often of the possibility of great property loss by fire. Fire loss often bears very heavily on the individual even when protected by insurance.

Our experience indicates that every farmer and every householder in a small town like ours should have at hand one or more portable hand fire extinguishers.

So many fires can be controlled when first discovered if some effective means of subduing the flames is at hand. If not controlled quickly a fire is apt to cause a fatal loss in the common type of wooden building.

We have found the hand chemical extinguishers very effective if used promptly and have extinguished 1 fire where the open gas tank and top of a Ford car were in flames inside our garage. With such a fire, several extinguishers are often the other were necessary, but did the job in good shape.

These extinguishers are always ready when properly charged, and one can get right at the base of the flame with a good strong stream which can be directed under a floor or roof and into any corner where needed.

The extinguishers can be carried to the fire, then, and only one stream instantly starts. The cylinders are tested to 200 pounds pressure and discharge a good stream for a few minutes.

The main precautions to be observed in the use of these extinguishers are: first, to keep them right side up until ready to use, and, second, to keep them where they will not freeze.

The portable hand fire extinguisher is simply a copper cylinder about 8 x 21 inches in size, containing a solution of 1 1/2 pounds of Bicarbonate of Soda, and at the top a bottle in a wire cage containing four fluid ounces of concentrated sulphuric acid. There are a number of firms making these extinguishers, which sell for about \$12 to \$15, while one charge is worth about \$2.

The extinguisher, when charged ready for use, holds about two gallons and weighs about 30 pounds, and when turned upside down the acid acts on the carbonate solution, generating carbonic acid gas. This gas creates a heavy pressure and causes the solution to discharge through a short hose pipe and nozzle provided. The carbonic acid gas does not support combustion and thus adds to the effectiveness of the stream of water and sodium sulphate and acid discharged. 2 to 3 Co and H 2 S O 4 — 2 Co and H 2 O and Na 2 S O 4.

The hand extinguishers work on the same principle as the larger chemical fire engines, and are a great safeguard in that there is an often time to hold in check a fire until an alarm can be turned in or in many cases the fire can be put out at once.

R. S. STOCKTON.

DODGE TESTS

The recent results of a long series of tests in automobile manufacturers' laboratories indicate the danger to owners in using anything but genuine parts in such service replacements as may be necessary.

For example, in Dodge Brothers' laboratory at Detroit a test was recently applied to rear axle shafts. The genuine Dodge Brothers axle shafts withstood six complete turns in the test for torsion strength, while the best of several counterfeit shafts withstood only 1 1/2 turns. In testing steering knuckle bolts the genuine bolts bent double without breaking when put under a given pressure. When the same pressure was applied to counterfeit bolts, they snapped without exception, showing brittleness and defective construction.

In the opinion of Harold W. B. Bell, local Dodge Brothers dealer, such tests show very plainly why it is the best policy for motorists to depend upon service stations approved by the factory building their car, for any service parts that may be required for such replacement work as may be necessary. It is only here that parts can be guaranteed as being genuine parts.

Automobile manufacturers build their parts for service work as well as they know how, because it is absolutely necessary in order to maintain the car owners' good will.

All car owners should realize the extent of the danger to them of always getting genuine parts. If repairs or replacements of parts become necessary it is worth having done in the most capable manner by an established place of business which has the stamp of approval of the manufacturers' lack of the car.

Play the Game

But you cannot play it without the tools. We have 'em, and at prices you can't beat anywhere. Here are a few examples:

W. C. BROWN
Strathmore, Alta.

Farmers in the neighborhood of Magnath and Raymond are forming an irrigation district to bring 60,000 acres under irrigation and will apply to the government for enabling legislation, and for the guaranteeing of the bonds of the district.

Vancouver, B.C.—A total of 12,998,669 bushels of grain were handled at the terminal elevator here during 1922, according to a statement made by Hon. J. A. Robb, Minister of Trade and Commerce. Of this amount 12,998,668 bushels were wheat. Total receipts at the elevator were \$171,273, and total expenditures \$75,866.

Halifax, N.S.—Upwards of two hundred boys, most of them between the ages of twelve and fifteen, on their way to farms in the Canadian West landed here recently. These boys were brought out under the auspices of various societies interested in child welfare work.

Saskatoon, Sask.—Saskatchewan produced in 1922 a total of 8,901,104 of cressney, better, an increase of 1,871,043 pounds, or 26.8 per cent, over 1921, according to a report issued by the Provincial Dairy Commissions. During 1922 the farmers received approximately 39,493,600 in cash for dairy products sold off the farms.

Carbon News

We wish to correct an error made unwittingly, in our last issue. It appears the record for the Carbon Golf Course is not 46 but 45, and is held by Mr. J. Poxon. Sorry Jack! We had no intention of depriving you of the honor.

A dance is to be held on Tuesday April 24th, in Carbon for the purpose of raising funds for the Baseball Club. The most possible music will be provided. Will everybody please turn out in your thousands.

We notice one of the windows of the Community Billiard Hall is broken. Ralph Kohn, we are told, was the culprit. Ralph says he was sober at the time. Gosh! mustn't he have some pair of elbows? Imagine what he could do if he gave anybody a poke in the ribs.

Two or three enthusiasts are fixing up the tennis court. Will all who are interested or who intend to play, please step forward and shoulder some of the burden.

A wedding of much local interest was solemnized at Edmonton on Tuesday, April 24, at 11:15 a.m. When Rev. K. C. McLeod united in marriage Miss Elsie Aurora Bell and Mr. Louis G. McQuade. Owing to the illness of the bride's sister, the ceremony was a quiet one.

The happy couple returned on Wednesday to Carbon where they will make their home. In the house formerly owned by Mr. H. M. Thornburn. The best wishes of the community are extended to Mr. and Mrs. McQuade.

Visitors to the town during the week included Mr. W. H. Braden, Mr. H. L. Collins, well known old timers, at present connected with the Mining and Assaying, and Mr. W. H. Irvine, of the Associated Mortgage Investors.

At a meeting of the local U.F.A. in Carbon last Saturday it was decided to meet the Carbon Board of Trade with the object of discussing co-operation in merchandising of farm products. This is a matter that affects the interests of everybody, farmers and merchants alike. For if, by a system of co-operative marketing, the farmer can obtain a better price for his produce, the merchant must also profit by the additional money made available. The matter deserves consideration.

Rockyford Locals

After the events of the past week, Andrew Gump has several new sympathizers in our village.

George McCrea and Sydney Dorey mentioned in Calgary Tuesday.

The weather and general conditions are certainly ideal now for land work with the exception perhaps that there is a real lack of moisture. However, the seed is being sown. It would seem as if optimism with the farmer has ceased to be a virtue and become a necessity.

Garden rakes have certainly played a good part during the past few days. Back yard rubbish has vanished like magic and the improvement is indeed remarkable.

Our tennis courts are the scene of much activity these days. The old pet is quite in evidence. Look out you Strathmore people, the way you treated us last year makes us eager to try it again.

Rangers and C. G. I. T. Banquet

The banquet to Fathers and Mothers by the Trail Rangers and Canadianists in Training was a howling success. The supper was a splendid one and the fathers and mothers ate and talked and listened to the old songs sandwiched in with the supper. There were a number of very appropriate toasts and were all replied to in real earnest.

The programme upstairs afterwards was good indeed, in spite of the fact that the slides for the picture machine did not come, so that the programme was not all that was advertised.

One feature of the evening we feel we cannot pass over without some comment. Several country people asked during the evening where our town people were. The ones of us who were there could not help notice the small attendance from the village.

These boys and girls, who put on the programme following the banquet, are our baseball and tennis fans; they are our future baseball and tennis players. The baseball supporters as well as the tennis enthusiasts expect when they put on a dance or a game that the rest of the people will attend so as to assist in swelling the financial income. The small charge for the programme after the banquet was announced as fifty cents, but as the slides were not come a collection only was taken. Let us all bear this in mind when they next are asked to put on a programme of any kind for the support of good sportsmanship, let us all come and bring our smile with us.

Rockyford Tennis Club

The annual annual meeting of the Rockyford Tennis Club was held in Stone's hall on Tuesday, the 19th inst., with the president, Mr. Alex. Sanger, in the chair.

Business was opened with the reading of the secretary's report and the balance sheet for the season, 1922, which were adopted without dissent.

A vote of thanks to the retiring officers was carried unanimously, and officers were elected for the coming season. Mr. Alex. Sanger was re-elected president. Mr. J. B. McGuire to be vice-president and Mr. H. F. Whelan to be secretary-treasurer. The executive committee will automatically eliminate the officers and three other members, thus elected being Mrs. H. E. Ryan, Mrs. A. G. Hill and Mr. H. Gillespie.

Arrangements for the coming season were then made.

An official opening day will be announced after the courts have been put into condition.

Members' dues were fixed as follows: Gentlemen \$10, Ladies \$5.00, Juniors \$2.00; to be payable on joining the club.

Heated Debate

I was startled as well as entertained by a glorious front of men, listening to a very heated debate which took place last Friday evening at the War College, or in other words, the headquarters of the hot stove league, of Rockyford, on the pervasiveness of the human race. Both gentlemen handling their subject without gloves, and after three hours of intensive struggle in circles pro, and con, exhausting every word that Webster has to offer, and quoting the bible from Genesis to Revelations and last, several times, concluded to call the argument off for the lack of words in the English vocabulary.

The startling conclusion arrived at was that civilization was condemned to denatation, how woe, the human race doomed to perdition, the plan of the creator all wrong, end of the world was just (sooner the better) and all wars, pestilence and misery, being foreordained for us poor mortals centuries in advance, and etc. Being somewhat of an optimist, not one of those optimists, you understand, that believe that my neighbors talk good of me behind my back, or fight the kitchen fire with gasoline, but one of those who still believe that there is more good in the human race than bad. Consequently I do not believe the plan of the Creator contemplated that millions of people should perdition by war, famine, or pestilence. I do not believe that the blessed God in His wisdom, that there ever should be a star, or a thief, a prostitute, or a murderer in this beautiful world of ours. God save us life and this old globe for habitation. He seemed to me the wisest thing necessary to the health and happiness of the human race, poured his treasure forth with a lavish hand on humankind that through our reputation was ten times as great it might go on forever, and no mortal son of Mann need suffer for life's necessities. Want and pestilence are not his creation. They were born of greed and ignorance. God sent no devil with horn and hoof to torment or tempt. He gave us passion necessary to the perpetuation and progress of the race, and divine reason wherewith to rule them, then let us work out the salvation, aided by those silent forces that are pressing all animate and inanimate life on to perfection. We need no celestial guide, no heavenly attribute of God himself. For more than a million years man has been struggling upward, inspired by that mysterious force that causes the pine to spring towards the sun. But advancing, we surely are. Sometimes the attributes of his age have been put on the planet, and he has been the obstruction at which lesser men fall in vain, sometimes the car of progress stands still for a thousand years, also bolts slowly backwards towards hell. But, there being none of sufficient strength to advance the standard further up the rugged mountain side. Thus ever in ebb and flow, gaining and losing, only to regain. Nations rising and falling, but only to serve as stepping stones, where on a man of nobler race, a grander people, the untrodden conflict of the God, like with the beast, like in man, goes bravely on.

In half a million years we have come far, we may a fair field from the domination of darkness.

We no longer dwell in caves, hollow trees, fabled, naked with the wild beasts of the forest for our prey. We have erected temples to that God who dwells not only in the heavens, but here on earth in the brain and heart of the human race. We have made matter, so far, subject to mind that nature forces have become our obedient slaves. We have built empires, nations, we have weighed the stars. We have not only acquired knowledge and power, but love and modesty. Thus, one by one, through the long ages, have we built within ourselves the attributes of the High towards whom our feet are tending. Life is no longer mere animalism. Content to gorge itself with roots and raw meat and sit in the sun. The ear craves melody, the eye beauty, the brain dominion, while the soul mounts to the very stars.

The car of progress travels in circles or at least history says it does; the same as nearly everything else in nature, including though, planets, electrical forces, etc., and every complete circle finds the car of progress turning up the mountain side.

So, there is hope, a blessed hope, and that hope is for a union of all the mightiest that make for the emancipation of all mankind, a union of religion, philosophy, science, and wisdom, so that we may sooner triumph over the cohorts of ignorance and prejudice.

WHAT NEWSPAPERS DO (Pulaski News)
The Newspaper started in When you are born. Relates about your experiences And tells about your weaknesses. It follows you to school. And prints the honor roll. If your name is found there, It tells of your graduation. And speaks of the excellence Of your magnificent essay. It tells of your progress During your college career. And then it dilates much about The choice of your location. Then it gives a nice notice About your marriage. And praises the blushing bride Till her blushes don't know her. Then, in the course of events, It tells about the booming baby That happens in your family—Thence beginning its life work All over and over again. The newspaper does all this And it does so much more. It tells of your progress. Made by city or country. And boasts all enterprises: Gives free advertisements. Gives you thousands of dollars To its home town. There are reads of things Here on earth in the brain and heart of the human race. For which they cannot be paid. That is why every citizen Should do his darndest To support the newspaper In every possible way. And at all time. Yassum. I thank you.

Regina, Sask.—Saskatchewan now stands first in the world in regard to the number of rural telephones per capita with a telephone for every nine of the population. It is estimated that the Saskatchewan Government has \$11,000,000 invested in urban telephone systems with \$1,800 subscribers, while the companies in the province have invested \$15,000,000 with 15,000 subscribers.

Recent official records show that the three thousand seven hundred licensed grain elevators in the Province of Manitoba, Saskatchewan and Alberta have a total storage capacity of over 100,000,000 bushels. Work has been commenced on the new elevator at the Battlefords Pier, Vancouver, which will cost approximately \$2,000,000 to complete. The new elevator will have a storage capacity of 1,500,000 bushels.

We quote from one of the big lungs of the sunny game, Mr. R. D. Porgan, in his summary, which is as follows: "Gold is a science, a study of a life-time, in which you may exhaust yourself, but never your subject. It is a contest, a duel in a temple, calling for courage, skill, strategy and self control. It is a test of temper, a trial of nerves, a revelation of character. It all tends a chance to play the man and set the auctioneer. It means going into God's out-of-door, getting close to nature, fresh air exercise. A few minutes of the mental and physical and size recreation of the tired tissues. It is a cure for cure, an antidote to worry. It includes companionship with friends, social intercourse, opportunity for courtesy, kindness and generosity to an opponent. It promotes not only physical health but moral force."

Town of Strathmore, ASSESSMENT ROLL FOR 1923

Notice is hereby given that the Assessment Roll of the Town of Strathmore, for the year of 1923, has been prepared and is now open for inspection at the office of the Secretary-Treasurer, of the Town from 12 o'clock to Five (5) o'clock in the afternoon on every day which is not a Public Holiday, and that any taxpayer, who desires to object to the Assessment of himself or of any other person, must within thirty days from the date of this Notice, lodge his complaint in writing at my office. Classified Ads.

Ads. in our classified columns only cost one cent a word, minimum 25c, paid in advance. If booked 2c per word. The Standard is read by practically everyone residing in the Western Bow Valley. It goes into 1100 homes two-thirds of these farm homes, and an ad. in these columns offers you the cheapest and best method you can utilize of circularising the district as to what you have to buy or sell. Call, write, or phone your ads. Get them in by Monday evening.

Poultry

SELLING Minnott Bros. Turkey Eggs at 25c each. Mrs. A. J. Novak, Chedoke. 25-4p
